12 I think man is very arrogant thinking that they have
13 all the answers for everything. They can't even get
14 the studies with the correct answers and here they are
15 saying, you know, that this is going to be good for
16 10,000 years. Who are they to say? I mean, we're only
17 people. I mean, people make mistakes and I think this
18 is going to be a doozer. That's about it. Thank you.
