 --> Comment Text :
 I don't want nuclear waste traveling over our state highways... especially through towns and cities. My children and grandchildren live here. I want no harm to come to them. Can the government PROMISE there will be NO accidental spills? I don't think so.

Let the state that produced the nuclear waste dispose of it in their own state.

Perhaps then people (scientists, researchers, etc.) will find other ways to do the things that nuclear energy does.

Please stop ruining our planet with harmful garbage (includes pollution of all sorts).

Sincerely,

Linda Lewis
