12 LORRAINE ROSS: Lorraine Ross.

13 I don't feel what they're doing is safe. I

14 don't. I don't feel -- I don't care how much precaution

15 and whatever. They say that this is safe. I don't feel

16 it's safe. I don't. You know, and the day we live in,

17 the terrorists, I mean putting all nuclear waste in one

18 place is insane. And you know that the ground stability

19 here is incredible, not safe.

20 And I -- I think they should think of something

21 else to do with it besides leave it in Nevada.
