Comments: (If possible, please reference section and/or page number in document if applicable.)

Do not make Nevada America's toxic waste dump! Yucca Mountain is unproven as safe, transportation issues are un-resolved - and now, I believe, we should be concerned about having all of our waste in one location.

Leave the waste where it is. Let each state & utility safeguard their own spent fuel. It isn't taking up much space and will be better off un-disturbed.
