14 I have three questions that I want answered.

15 Why are we allowing foreign countries to dispose of

16 toxics and nuclear waste on American soil?

17 Okay. Could a container from a foreign

18 country contain an explosive sent by terrorists that

19 would detonate once it was positioned in any American

20 waste depositories?

21 And the last one is: What would be the loss

22 of life if a nuclear device was set off inside a site

23 like Yucca Mountain with an abundance of nuclear waste

24 nearby to fuel the burst?

25 That's my questions.
