ROBERT H. PASCHALL, ASA  
CONSULTING VALUATION GEOLOGIST

3 October 2001

Spencer Abraham, Secretary  
Department of Energy  
Washington D.C.

Dear Mr. Secretary:

Thanks to our recent national disaster, you now have those selfish, intransigent Nevadans exactly where you want them. Mind you, I live in a county that is allegedly impacted by the Yucca Mountain nuclear-waste facility, but that doesn't bother me a bit.

We now have an immensely more serious concern than Yucca Mountain, namely that of wastes stored at power plants near metropolitan areas. For the sake of people's peace of mind, and in order to remove those stored wastes from possible harm, they must be moved to Yucca Mountain.

Anyone who continues to oppose that action can be deemed downright traitorous. Perhaps you can get President Bush to say that, privately if not publicly.

Sincerely

2758 GLENBROOK WAY BISHOP, CA 93514 PH. (760) 872-2293
