- \*\*\* Total ancestries tallied is the total number of people reporting each specific ancestry either first or second in their response to the ancestry question. For example, someone responding "Irish-German-Dutch" is counted in both the Irish and German ancestry groups, but the third response is not tallied. Total tallies can be greater than the total population, even though many people left this question unanswered. This is the only question the Census Bureau did not impute answers to for non-respondents.

The [Nevada Small Business Development Center](#) and [Dataworks](#) have joined forces to create **Nevada Data**, providing the complete 2000 census results for the State of Nevada. The data are provided in Adc and were constructed using the [SDC/BIDC Clearinghouse](#) SPSS macro. Get the free Adobe® Reader®

The data are compiled in the following demographic profiles (see below) at the state, county, and place | "All Profiles" link contains compilations that include all of the demographic profiles at each geographic level. For example, all profiles for Washoe County, or all profiles for Beatty CDP).

After clicking on a demographic profile, a pop-up window will appear allowing you to select your specific region of interest. If you are unsure of which profile you want or would like to know their contents, please mouse over each profile and a box will appear displaying what each category contains. For more information on each element of the Decennial Census, please visit the [U.S. Census Bureau's glossary](#).
