To Whom It May Concern:

1 [ I am writing to state my opposition to and disgust at any plans to "store" ( i.e. dump ) nuclear waste on any Shoshone treaty lands.

The indigenous inhabitants of this continent have been all but decimated at the hands of white society. Enough is enough; as a white person, I want no part of further acts of white supremacy and ill-gotten white privilege. ]

2 [ Moreover, I believe that devoting resources to expand this nation's nuclear capacity is the wrong way to go. ( I say that as somebody who has never owned an automobile, takes public transportation, and conserves power at home. ) But if nuclear waste should be dumped anywhere, it should be buried in the backyards of the CEOs and financiers who have benefitted obscenely through promoting a wasteful, automobile-based society and economy while radically altering the global environment. ]

Kim Rohrbach  
San Francisco

Public hearings have not been well attended, statements mostly in favor of the plan to put all of the nuclear waste in the country in this one sacred place. Activists were told that if we do not go on record with a statement, we will have no legal recourse later on.

Local papers & media spin have recently stated that opposition to the nuke dump had dropped of since the passing of Corbin Harney. The nuclear reps are confident to the point of acting like it's a done deal. WE KNOW THAT'S NOT TRUE! LETS PROVE THEM WRONG! TAKE ACTION & MAKE YOUR COMMENT NOW!!

Yucca Mountain is sacred to the Shoshone as an herb gathering site, for rituals, and as a part of their stories. Yucca Mountain is known in Shoshone language as Snake Mountain. Indeed it looks like a snake. It is said that the snake was headed north when it froze where it is. Further more it is said that it will move again and "flip around". Geologists say that there are thirteen different fault lines running through it.

Citizens can make an oral statement at the scheduled public hearings or fill out a form and mail it in to EIS Office U.S. Department of Energy Office of Civilian Radioactive Waste Mgmt, 1551 Hillshire dr. Las Vegas, NV, 89195-7308 or by e-mail at EIS\_Office@ymp.gov.
